

WOMEN IN ENGINEERING GALA

PRESENTED BY
WOMEN OF MANITOBA ENGINEERING NETWORK

SPONSORSHIP PACKAGE

A MESSAGE FROM THE PRESIDENT

Dear Future Sponsor,

Women of Manitoba Engineering Network (WOMEN) is a student group at the University of Manitoba in the Price Faculty of Engineering. WOMEN was established in 2017 on the heels of the annual Conference on Diversity in Engineering (CDE) which aims to promote discussion on diversity in the field of engineering. The group is dedicated to provide resources, opportunities, and a sense of community to promote inclusivity and empower female identifying and non-binary engineering students. WOMEN is a University of Manitoba Engineering Society recognized technical society and aims to continue programs to establish a sense of belonging for all gender minorities within engineering.

WOMEN's main goals are:

- To provide opportunities and support to women in, or interested in, engineering.
- To develop a socially conscious community at the University of Manitoba and to promote change, inclusion, and diversity within the student body.
- To aid in amplifying the voices of marginalized groups within Engineering.
- To promote the development of leaders within our group and community who have a commitment to women's rights, gender equality, and intersectionality.
- To cultivate partnerships with similar-minded individuals or organizations and promote awareness of the structural inequalities present in society.

Throughout the academic year, WOMEN hosts events and organizes programs that serve the engineering community. Examples of past events we have hosted are networking nights, professional headshots, skill workshops (i.e. soldering, welding), discussion panels and tours with members of industry, study cafés, and awareness events. In recent years, we launched the Aunt Flo's Pantry program, which provides free menstrual products to engineering students in need.

Partnerships between industry and students are important for developing an inclusive engineering community. Thank you for your interest in our group, we look forward to any involvement that your company has with WOMEN.

Thank you for your time and consideration.
Rayna Vergata

THE GALA

In March 2026, Women of Manitoba Engineering Network hosted the “Women In Engineering Graduation Banquet”. This event was very successful and received an overwhelming positive response from our guests. Students and professionals alike expressed not only how much they enjoyed the event, but how much it was needed. Guests told us how incredibly important community is, that being in a room with so many other women in engineering motivates and inspires them. We took this feedback to heart and decided to expand the graduation banquet into the Women in Engineering Gala.

The gala aims to bring together students, professionals, and community members to celebrate and reflect on the accomplishments of women in engineering. Rather than focusing on the graduating class, the Women in Engineering Gala acknowledges and uplifts all women in the engineering community. Communal gatherings are crucial to keeping women in engineering. They create opportunities to make new friends, connect with old ones, learn from those who came before, and mentor the ones that will come after. Most importantly, they remind us we are not the only women doing this. There are women in engineering everywhere, we hope bring many of them together for one night.

An extra goal of the gala is to provide complimentary gala tickets to high-school students interested in engineering. These students will experience the amazing community of engineering women and hopefully it will encourage them to pursue engineering career.

COMPANY BENEFITS

By participating in or sponsoring the Women in Engineering Graduation Banquet, your company can:

- **Showcase Support for Diversity and Inclusion:** Demonstrating your commitment to supporting women in the engineering field is powerful and can enhance your company's reputation for valuing diversity.
- **Engage with Future Talent:** The event allows for direct interaction with the next generation of engineers. Your company can engage with students and fresh graduates who may become future employees, offering a great opportunity to scout talent and network.
- **Strengthen Industry Relationships:** The gala brings together engineers from all disciplines and level of experience. This provides a platform for building connections with other companies, professionals, and organizations within the engineering community.
- **Leave a Lasting Impression:** As a sponsor or participant, your company can make a memorable contribution to the event, whether through recognition, sponsorship, or directly connecting with guests. Your support will be appreciated by the attendees and the community.

SPONSORSHIP TIERS

	Platinum \$5000+	Gold \$2500+	Silver \$1000+	Bronze \$500+
Placement of Company Logo in Slideshow	Large	Medium	Medium	Small
Complimentary Tickets	8	4	3	2
Honourable Mention During Speeches	✓	✓	✓	✓
Placement in Banquet Dinner Program	Full Spread	Large Logo	Medium Logo	Small Logo
Placement of Company Logo on All Tables	✓	✓		
Placement of Company Logo on Banquet Tickets	✓			
Speaker Opportunity at Banquet (1-2 available)	✓			

THANK YOU

We look forward to working with you.
